1. Create an exam schedule for 6 subjects: Math, English, History, Biology, Art, and Physics.

   Result: Simple list, no logic applied based on difficulty.

2. Create an exam schedule for 6 subjects. Math and Physics are hard; History and Biology are medium; English and Art are easy. Put easy subjects earlier in the week, and hard ones later. Only 1 exam per day.

   Result: Better structure, follows the order correctly

3. Generate a week-long exam schedule (Mon–Sat) for these 6 subjects based on their difficulty:
1.   Hard: Math, Physics
2.   Medium: History, Biology
3.   Easy: English, Art
   - Rules:
1.   Easy exams first
2.   Hard exams last
3.   One exam per day
4.   Avoid placing two hard subjects back-to-back.

   Result: Final version is well-structured, balanced, and ready for use.

Final Output (Example)

Day	Subject	Difficulty
Monday	English	Easy
Tuesday	Art	Easy
Wednesday	History	Medium
Thursday	Biology	Medium
Friday	Physics	Hard
Saturday	Math	Hard
